As long as we can vet participants sounds fine.

Patrick,

No objections on my part. This would only be limited to a viewable platform for those accessing the webcast, correct?

Regards,

Christian Corbo

UC

Would you all be interested if we set up a web cast for the Hot Wash for those who cannot make the actual physical location?

Hi Everyone-

Here is the updated SCAT map. This includes the overview and close-up map.

Thanks

Jennifer

Hello OSPR GIS-

Please update the current Refugio Incident map. Please change SB-I-S005C to met clean-up goals (w/ Continued Monitoring), the yellow line. Thanks

Jennifer

Hello Jennifer,

Do you have time to follow up on this today or do you want me to work with GIS on this?

UC,

We have more recent maps (dated August 19th) but are waiting on the state to develop maps with the information from this weekend's SCAT assessments. We spoke over the weekend and was communicated that they would be produced today. Attached are the most recent maps that I have copies of.

Mike, will you follow up with the state GIS Specialist?

Respectfully,

Ryan Andersen

Alexia

PSC has an updated map developed. No need to develop another one.

Subject: Request from the public for an updated Oil Situation Map

The last map published for Refugio was June 19 (link here <http://www.refugioresponse.com/go/doc/7258/2547198/>
<<http://www.refugioresponse.com/go/doc/7258/2547198/>>)

Members of the public are asking if there is an updated map that would could post in light of the Phases of Cleanup document being posted.

PIO would like to ask the UC if it would approve the development of an updated map showing current status of the cleanup.

Please advise. Thank you.
